Virtuemart 2.0.2+ is compatible with Joomla 2.5, however we have noticed problems within the Virtuemart code and we are unable to offer the desired level of quality until Virtuemart offers an update.

Step 1. Download

Download the module from the ICEPAY website and leave it zipped. Ensure you download the **Virtuemart 2** payment module.

Step 2. Joomla Extension install

Extensions -> Install/Uninstall	Upload package file

Browse to the downloaded zip file (Named like 'basic-joomla_virtuemart2-x_x_x.zip') and 'Upload File and Install'.

This will install the ICEPAY VirtueMart 2 component and it also automatically installs and enables the ICEPAY payment method plugin.
